

To Whom It May Concern:

K-LOVE (FM 91.1 Denver, CO) is an incredible addition to our community. Having the Godly encouragement accessible to everyone 24 hours a day is important. My husband has spent quite a bit of time in mental hospitals in the last 5 years. K-Love has been the encouragement that I need in the middle of the night or on my way to and from the hospital. If K-Love were to be displaced by an LPFM broadcaster, my city would lose a valuable resource. There are not many stations that provide CLEAN family entertainment, and K-Love does that. All 3 of my children listen to it and I never have to worry about what they will hear. I know that they will be cheered up, refocused and reminded of God's love for them, even when I am not home to tell them that. Please, don't allow my city's K-Love to become unaccessible. The people of greater Denver need an uplifting, encouraging station that they can listen to whenever life gets overwhelming. Our country has gone through many hard times in the last few years and K-Love reminds people that God is in control and loves them even when life is hard. How can anything be more important than strengthening our community with love? I pray that you will make a decision that will not injure the moral fabric of the airwaves.
